Plants are the base of some ecosystems! All creatures rely on plants to live here (food, shelter)

<https://socratic.org/questions/which-represents-an-ecosystem-better-a-food-chain-or-food-web-why>

What are some ways we rely on plants?

Native Species

Glacier Lily

Non-native species

Morrow's Honeysuckle

Invasive Species

Ventenata

A lush, dense forest scene with sunlight filtering through the canopy, creating a hazy, golden atmosphere. The trees are covered in vibrant green foliage, and the overall mood is serene and natural.

What is plant conservation?

Biodiversity

-All of the different life forms on Earth.

Plant diversity

-All of the different plants in a habitat

What are some ways we can conserve plants?

Stay on the trails to avoid crushing plant life!

PULL YOUR SHARE

**Knapweed destroys
wildlife habitat**

Please pull 5-15 minutes
per outing; wear gloves

Pull invasive weeds!

Promote Biodiversity
in your yard!

Protect Pollinators!

Grow your own plants!

Time to paint and plant!
